Cost saving efficiencies  
Managing all your contracts

## A FULL-SERVICE DENTAL MODEL

- ✓ **Comprehensive one-stop shop**  
Whatever you need, we can supply, manage and maintain.
- ✓ **Single point of contact**  
With a dedicated Account Manager, you have a single contact for ALL your dental needs, simplifying the process.
- ✓ **New, used, loan and rental equipment**  
From sourcing new capital equipment, reconditioned, loan or rental equipment – we can do it all.
- ✓ **Equipment standardisation**  
To drive costs savings, service management and efficiencies we can standardise your equipment to save you time and money.
- ✓ **Same day call-out and repair**  
Maximising uptime and minimising downtime is our goal. If you need support, we'll be on-site the same day.
- ✓ **Inventory management**  
Our customers benefit from free auditing and inventory management with our bespoke online asset system.
- ✓ **National engineering network with local relationships**  
With over 85 skilled engineers across the UK, wherever you are located, we have a trained engineer near to you.
- ✓ **Cabinetry, furniture & flooring**  
We design and install across all practice functionality, with installation to the highest standards, with bespoke design and durability.
- ✓ **Practice design and project management**  
From refurbishments to new premise settings, we cater for all size projects no matter how large or small.

Our engineers are highly trained professionals, with expertise across OEM equipment, who offer flexibility to accommodate a busy practice.

With the backing of our global parent company, VAMED, you can be assured of receiving an industry leading service, to ensure your uptime is maximised.

This is all delivered through a single point of contact, removing the pressure of managing multiple service providers, to give practice managers more productive time.
